DURACLASS *Venus*

THE QUINTESSENTIAL RESTROOM SOLUTION
THAT YOU WILL BE PROUD OF

DURACLASS Venus

Equipped with a quintessential look, DuraClass Venus offers a solid structure matched with the elegant stainless steel accessories. This system is rigid and stable, providing the qualities that are apt for high traffic and heavy usage. Complete with its various resistance and type 304 satin finish, DuraClass Venus is definitely the answer to your worries.

DIMENSIONS

Cubicles' 1980mm overall height design includes a 150mm floor clearance. Its width and depth are tailored to meet your preferences and to adapt to individual site conditions.

MATERIALS

Standard design combines the use of solid compact laminate panel (phenolic core), natural anodized channel, and stainless steel accessories. Other options are available.

PANELS

Dividing panels are made of 12mm thick high density, water-proof, solid, compact laminates (phenolic core). Door and pilaster panels are 18mm thick. Ready made with high pressure textured matte finish melamine on both sides for shock and mar resistance.
